

IS OUR GOVERNMENT AND FREE PRESS UP FOR
SALE TO THE HIGHEST BIDDER?

Instead of forcing editorial positions on the public by
either print or broadcast journalism, the journalists
should handle the content without editorializing
unless it is CLEARLY stated and identified that it is
opinion and editorializing. Anything else should be
illegal.

We have lost and are losing our "free press" in
this country. Already, I must go to BBC or
European news to obtain more accuracy in the
reporting.

If our democracy is to continue, greater continual
oversight must be exerted so that powerful and rich
individuals or agents cannot hijack our press to
broadcast or print whatever their particular position
might be.

One of the paths that fascism and dictators take is
control of the media. We are dangerously toying
with this path now.
